Objective:

I am a Software Engineer with 4+ years of experience with full-stack web development with AngularJS, React/TypeScript, ASP.NET Core, and Microsoft SQL Server. Currently, I am an active contributor/admin and code reviewer on UHOne's GitHub repository and was one of our top contributors in our effort to migrate our front-end infrastructure from AngularJS to Typescript/React.

Education:

DePaul University
Masters of Information Systems and Database Management

Chicago, IL
Graduation: June 2021

DePaul University
Bachelors of Liberal Arts and Social Sciences
Majors in Philosophy and Political Science
Concentration in Greek Philosophy, Logic, and Foreign Affairs

Chicago, IL
Graduated: June 2016

Experience:

<i>Associate Software Engineer</i>	<i>United Healthcare/Optum Tech Indianapolis, IN</i>	<i>Jan 2019 – Present</i>
------------------------------------	--	---------------------------

- Led efforts to create a reusable React template as well as spearheaded efforts to rebuild our existing front-end for UHOne.com/shop from AngularJS to React/TypeScript.
- Delivered a solution to migrate from an old in-house CMS to Adobe Experience Manager for our React application.
- Active Admin/Contributor/Code Reviewer on our React repository on GitHub
- Helped rebuild the front-end/UI of UHOne.com and assisted the conversion from Sitecore to Adobe Experience Manager (AEM)
- Delivered a solution to migrate from a 20 year old in-house CMS to Adobe Experience Manager (AEM) for our React application which cut our existing network requests for content on a single page from 100+ requests to 1.
- Azure Pipelines yaml/terraform experience for a CI/CD pipeline
- Extensive experience with AngularJS, React/Typescript, .NET Core, and Microsoft SQL Server
- Great experience with debugging and testing.
- Worked with large and small dev teams in an Agile software development lifecycle

<i>Quality Control Analyst</i>	<i>Wintrust Financial Chicago, IL</i>	<i>May 2018 – Jan 2019</i>
--------------------------------	---	----------------------------

- Assisted with the development of more efficient BIC reports (SAP/SQL) – leading to a more efficient QC process.
