Objective:

I am a React/TypeScript focused Software Engineer with 3+ years of experience with full-stack web development with AngularJS, React/TypeScript, ASP.NET Core, and Microsoft SQL Server. Currently, I am an active contributor/admin and code reviewer on UHOne's GitHub repository for our migration efforts from AngularJS to React/Typescript as our current application runs on AngularJS and is losing long-term support at the end of this year.

Education:

DePaul University
Masters of Information Systems and Database Management

Chicago, IL
Graduation: June 2021

DePaul University
Bachelors of Liberal Arts and Social Sciences
Majors in Philosophy and Political Science
Concentration in Greek Philosophy, Logic, and Foreign Affairs

Chicago, IL
Graduated: June 2016

Experience:

Software Engineer *United Healthcare/Optum Tech* *Jan 2019 – Present*
Indianapolis, IN

- Helped rebuild the front-end/UI of UHOne.com and assisted the conversion from Sitecore to Adobe Experience Manager (AEM)
- Led efforts to create a reusable React template as well as spearheaded efforts to rebuild our existing front-end for UHOne.com/shop from AngularJS to React/TypeScript.
- Delivered a solution to migrate from an old in-house CMS to Adobe Experience Manager for our React application.
- Delivered a Docusaurus website to house all documentation relating to our React template application and Adobe AEM CMS documentation.
- Azure Pipelines yaml/terraform experience for a CI/CD pipeline
- Active Admin/Contributor/Code Reviewer on our React repository on GitHub
- Extensive experience with AngularJS, React/Typescript, .NET Core, and Microsoft SQL Server
- Experience working with RESTful web API's and large datasets
- Worked with large and small dev teams in an Agile software development lifecycle

Quality Control Analyst *Wintrust Financial* *May 2018 – Jan 2019*
Chicago, IL

- Assisted with the development of more efficient BIC reports (SAP/SQL) – leading to a more efficient QC process.
