Objective:

Results-driven Software Engineer with over 6 years of expertise in full-stack web development using AngularJS, React/TypeScript, ASP.NET Core, and Microsoft SQL Server. Proven track record as an active contributor/admin and code reviewer on UHOne's GitHub repository, with a key role in migrating front-end infrastructure from AngularJS to TypeScript/React.

Education:

DePaul University
Masters of Information Systems and Database Management

Chicago, IL
Graduation: June 2021

DePaul University
Bachelors of Liberal Arts and Social Sciences
Majors in Philosophy and Political Science
Concentration in Greek Philosophy, Logic, and Foreign Affairs

Chicago, IL
Graduated: June 2016

Experience:

| | | |
|--------------------------|--|---------------------------|
| <i>Software Engineer</i> | <i>United Healthcare/Optum Tech Indianapolis, IN</i> | <i>Jan 2019 – Present</i> |
|--------------------------|--|---------------------------|

- Led the development of a reusable React template and spearheaded the transition from AngularJS to React/TypeScript for UHOne.com/shop.
- Successfully migrated from an old in-house CMS to Adobe Experience Manager for the React application.
- Actively involved as an Admin/Contributor/Code Reviewer on the GitHub React repository.
- Created a React/TypeScript code assessment and participated in interview processes.
- Contributed to the rebuilding of UHOne.com's front-end/UI, assisting in the conversion from Sitecore to Adobe Experience Manager.
- Implemented a solution to migrate from a 20-year-old in-house CMS to Adobe Experience Manager, reducing network requests from 100+ to 1.
- Utilized Azure Pipelines YAML/Terraform for CI/CD pipelines and GitHub Enterprise.
- Demonstrated expertise in AngularJS, React/TypeScript, .NET Core, and Microsoft SQL Server.
- Collaborated with large and small development teams in an Agile software development lifecycle.

| | | |
|--------------------------------|---|----------------------------|
| <i>Quality Control Analyst</i> | <i>Wintrust Financial Chicago, IL</i> | <i>May 2018 – Jan 2019</i> |
|--------------------------------|---|----------------------------|

- Assisted with the development of more efficient BIC reports (SAP/SQL) – leading to a more efficient QC process.
